WEATHER PROBABILITIES.—**War Department, Office of the Chief Signal Officer, Washington, D. C., Oct. 27, 1877.** 10:30 a. m. —For the Middle Atlantic States cloudy weather and areas of light rain, north, backing to northwest, and stationary or higher temperature and pressure. **PRESENTATION.**—The presentation of testimonials by the Board of Fire Commissioners of the District of Columbia to the firemen of this city, for assistance rendered at the Patent Office fire, took place this morning. Col. Thomas H. Morgan, President of the Board, who was the bearer of the resolutions, was met at the Washington depot by Mayor Kemper and Chief Engineer Leachman, who escorted him to the Council chamber, where a number of firemen and citizens had gathered to witness the presentation. Among those present were the Auditor, Treasurer, Collectors, Commissioners of the Revenue, Aldermen Strauss, Cunningham, Rishell, Pals and Monroe, and many officers and members of the Fire Department. The resolutions, which have been heretofore published, are most elegantly expressed, and are enclosed in a handsome frame. Col. Morgan, in presenting them, said that the duty was to him a most pleasant one. Although not present at the Patent Office fire, he had heard that one report, from those who were, and that that the Alexandria firemen did nobly. Although he had removed from here many years since, he still loved the old town, and, as a former citizen, he rejoiced in these evidences of the efficiency of his firemen. Mayor Kemper responded, and returned thanks on behalf of the citizens generally. He hailed the occasion as another sign of the cordial and kindly feelings existing between the two municipalities. He alluded to the important services heretofore rendered by the Washington Fire Department to this city, and the alacrity and cheerfulness with which they had responded to the call for help upon these occasions. In conclusion he turned over the testimonials to Chief Engineer Leachman, for the firemen. Col. Morgan said when he first spoke he had forgotten to mention the fact that he was present to return the thanks, not only of the Fire Department of the District, but also of the General Government. He then presented photographs of the Patent Office, before and after the fire, which had been sent by the Hon. Secretary of the Interior. Chief Engineer Leachman returned the thanks of the Fire Department of this city for the complimentary testimonial. They had been more than willing to assist their brethren of the District, and had considered themselves repaid by the complimentary speech of Secretary Schurz, on the evening of the fire. He complimented the firemen of this city for their promptness in answering alarms of fire and related the circumstances under which the telegram for aid was received and responded to. He also referred to the testimonial of the Washington department for the loan of tools during the horse chase, and the pleasure with which they were received by the firemen. Col. Morgan and the officials present then repaired to the Tivoli House where an elegant lunch had been prepared, and spent a short time in social enjoyment, after which Col. Morgan made a brief inspection of the three cottage houses of the city, with which he expressed himself highly pleased, and then returned to Washington. The testimonials will be on exhibition in the window of Adams' jewelry store, on King street, for the present.

CITY SCHOOL BOARD.—At 8:10 last evening, by sending out for absence, a quorum was secured, consisting of Messrs. S. C. Neale, chairman, Andrew J. S. Beach, Burke, Gregory, Kemper, McKeezie, Marbury and Whitely, and the Superintendent of Schools. The minutes of the last meeting were read and approved. Mr. Burke, from the Committee on Finance and Accounts, reported as correct the bills of A. S. Perceper, kindling wood, \$7.50, and Higgins & Norris, repairs of water pipes, &c., Peabody building, \$1.20, which were ordered to be paid. The Superintendent stated that as few white children were now obtaining permits, and the number of children in Peabody School was likely to decrease with the cold weather, he had, in consideration of the low condition of the school funds (35 cents for each child having been appropriated by the State authorities to the payment of other claims last year, and its recovery being doubtful) decided to delay, at least, the opening of another division, in the hope that its necessity might be avoided. Mr. J. S. Beach presented a letter from Mr. John S. Blackburn, enclosing an application from W. J. C. Dalany & Co. for the readoption of Blackburn & McDonald's Histories of the United States, which was referred to the Committee on Studies and Discipline. The chair laid before the Board a communication from Mrs. Eleanor Brown, complaining of the exclusion of her son, Percy Brown, from Washington School, which was referred to the Committee on Complaints and Grievances, and at 8:20, the Board adjourned.

REVERSED.—In the Gazette of Thursday it was noticed that H. E. Drayton, the colored constable of the Third Ward, had been arrested, carried before Justice Slaymaker, and fined on the charge of assaulting a colored woman named Rose Lewis. The alleged assault occurred while Drayton was arresting the woman on a warrant from Justice Lorey. Drayton, considering himself aggrieved, took an appeal from Justice Slaymaker's decision, and the case was heard at the Mayor's office yesterday evening, before Justice Slaymaker, while Drayton and the woman rose the first decision, and assessed the costs against Rose Lewis. There was considerable feeling manifested by the parties, and it was thought at one time that a fracas would ensue.
